### **DETAILED ACTION**

#### ***Priority***

1. Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(c) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows: US Application # 10/627,618 was not copending at the time of filing of US Application # 10/566197 and therefore does not receive priority on said document. Also, it is to be noted that the claimed priority on 10/627618 was erroneously placed under the 35 USC 119 section of the Oath and should have been entered under 35 USC 120. Thus the effective filing date of this application is 07/28/2004.

#### ***Drawings***

2. The drawings filed on 01/30/2006 have received, considered and accepted.

#### ***Allowable Subject Matter***

3. Claim 35-36, 39-51, 53, 55-58, 62 and 66-67 are allowed.

4. The following is an examiner's statement of reasons for allowance: Claims 35-36, 39-51, 53, 55-58, 62 and 66-67 have been found to be novel and inventive because prior art fails to show or teach a safety security cable comprising a first electrically conductive cable member; a second electrically conductive cable member; an air separator and a plastic electrically insulating member both being disposed between the first conductive cable member and the second

conductive cable member; the first electrically conductive cable member having one surface in contact with the air separator and being freely movable within the air separator relative to the plastic electrically insulating member, such that the flexible sensor is capable of providing impedance change in response to a disturbance; and the plastic electrically insulating member being made of a material selected based on triboelectric series properties and being processed such that the flexible sensor cable is capable of producing a terminal voltage with acceptable signal to noise in response to a disturbance.

The closest prior art of record, US 2005/0024210 A1, was published after the effective filing date of this application, owned by the same inventor and cannot be used in a Double Patenting rejection as the claims are different.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
